

LifeQuote improve Apply Screens

Following feedback from a number of advisers we have now improved our apply screens.

- Free type box – added so advisers can add brief notes giving extra information for the application. This will help speed up the case as additional requirements can be provided straight away.
- Mobile number option – when booking the call advisers can now select for us to call on the mobile number adding more flexibility for the clients.
- Updated confirmation pages – these now provide more information about the next steps of the application.

We hope you find this useful and welcome any further feedback you may have about our systems or services.

Best regards,
LifeQuote Team
