

## Royal London improve Children's Critical Illness

A key concern of parents who take out protection is that their children will also be covered against an unfortunate illness. To try and help make the situation less stressful Royal London includes Children's Critical Illness cover at no extra cost when taking out Critical Illness Cover on a personal menu plan.

Royal London includes:

- Every child is covered (including step children and legally adopted children) from birth until their 21<sup>st</sup> birthday
- No limit on the number of children covered
- They pay out 50% of the main benefit up to £25,000 for each child. If the parents have separate cover this increases to £50,000
