

## Royal London Offers Different Level of Children's Cover

Royal London has updated its Children's Critical Illness options to offer different levels of cover to allow clients to tailor the quotes based on their needs.

Royal London believes that a "one size fits all" approach doesn't always work as the needs of families change. You are now able to choose the level of children's cover at quote stage and amend the policy later down the line if needed without any additional medical information.

### **Enhanced Children's Critical Illness Cover**

For clients who have children, or who are planning to start a family, and want the most comprehensive cover.

### **Standard Children's Critical Illness Cover**

For clients who want some children's cover – perhaps for older children, or who may have a tighter budget.

### **No Children's Critical Illness Cover**

For clients who don't have any children or don't have any immediate plans to start a family.

Royal London has produced a sales aid to show the benefits of this flexibility. Download [here](#).

We are currently working on adding this flexibility into the LifeQuote Portal but in the meantime we can still process applications with these amendments. You can submit them via our Submit Alternative Quote tool or through our integrations with IRESS and iPipeline.

For further information please contact our Adviser Support Team on 01243 791199.
