

Don't forget most of your cases can be processed for free!

As an Intrinsic Restricted adviser you can benefit from our application and administration service for **free** with the majority of cases.

We can process any application (regardless of product) with Aviva, The Exeter and Old Mutual Wealth free of charge.

This includes access to our quoting Portal or integration options with IRESS and iPipeline, a telephone application with your client and full case administration through to the policy being placed on risk. We can even help with post risk administration such as changing addresses or policy amendments.

The free cases don't stop there.

We can also process any Business Protection – including Relevant Life – applications with Aegon and **ANY** application that includes an element of Critical Illness Cover or Income Protection across your whole panel.

You don't need to do anything we will work out which cases are free and which cases you need to pay for. You can save on average 3 hours per application with an expert service without it costing you a penny.

For more information on our charges please contact the Adviser Support Team on 01243 791199 or [download the fact sheet here](#).
