

Tailor your quotes with LifeQuote Add Ons

With Aviva, Royal London, VitalityLife and Zurich introducing the ability to add or remove different features we have developed a simple process to allow you to get the exact quote you want.

LifeQuote's Add Ons pages appear once you have selected the relevant insurer, you'll be provided with the available options to change and then you can update the quote to see the new price*.

Customise your quote

Please select the options you would like to include within the application.

If you have any questions please call the Helpline on 01243 791199

Benefits

App1

Applies to Whole Policy

Multi Fracture Cover

 No

Level Term Life & Critical Illness Insurance

£200000, 25 years

Critical Illness Select

 No (will be applied across the whole benefit)

Children's Benefit

 Yes (will be applied across the whole benefit)

Enhanced Children's Benefit

 No (will be applied across the whole benefit)

Total Permanent Disability

 Yes (will be applied across the whole benefit)

[Update Quote](#)

[Proceed](#)

The initial quote results will automatically include Total and Permanent Disability and standard Children's Critical Illness Insurance for all quotes that contain an element of Critical Illness Insurance. This is to provide a fair comparison across the board. If your client doesn't require these options and they can be removed, you'll be provided with the options on the Add Ons page.

Our aim is to keep this process as simple as possible but still allow you the flexibility to tailor the quote to meet your client's needs.

*For Aviva quotes we aren't currently able to provide an updated price. A new quote will be provided to you once the application has been submitted to LifeQuote.

For further information or to arrange a demonstration of the add ons process please contact the Adviser Support team on 01243 791199.
